

ASK H*LE

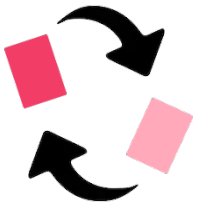

Instructions

These instructions are suggestions. Play any way you want.
(If you come up with a great way to play, let us know by emailing us at askholecontact@gmail.com.)

The Grid for 2-10 people

Place a 5x5 grid of cards face-down on a table, each column consisting of a different color/category. Take turns drawing and answering one card at a time, Jeopardy!-style, until none remain.

Social Mixer for 10+ people

Everyone draws one question. When you encounter someone, ask them your question, and they ask you theirs. After you both answer, trade questions, move along to a new partner, and repeat.

The Askhole for 3-6 people

Appoint an Askhole. The Askhole draws the same number of cards as there are people in the group (including the Askhole) and, after looking at them, distributes them face down, one per person. One by one, everyone flips their card and answers their question – Askhole included. Then choose a new Askhole and repeat!
